PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Data Science, with experience in software development, data analysis, ERP systems, and IT support. Skilled in programming, data analysis, and problem-solving, with a keen interest in applying technology to real-world challenges. Proven ability to collaborate in teams, communicate technical concepts clearly, and continuously learn new tools and methodologies.

KEY SKILLS

Programming Languages

- Python (primary)
- SQL
- JavaScript
- TypeScript
- C#
- Java
- C++

Data Science & Machine Learning

- Data Analysis
- Data Cleaning
- Feature Engineering
- Exploratory Data Analysis (EDA)
- Predictive Modelling
- Machine Learning
- Statistical Analysis (R)

Data Visualization & Reporting

- Power BI
- Tableau,
- Matplotlib
- Seaborn,
- Microsoft Excel (Advanced)

Databases

- MySQL
- PostgreSQL
- SQL Server
- SQLite

Backend & API Development

- RESTful APIs
- FastAPI
- Flask
- ASP.NET Core

Frontend Development

- React
- Next.js
- HTML
- CSS

Cloud & DevOps

- CI/CD Pipelines (Jenkins, GitHub Actions)
- Automation (Bash, PowerShell)
- YAML Configuration
- Cloud Deployment Concepts

Software Engineering

- Software Development Lifecycle (SDLC)
- Agile Methodology
- Version Control (Git)
- Debugging, Testing

EXPERIENCE

Irys Middle East LLC – United Arab Emirates,

[March 2026 – May 2026]

Irys is a global RFID and IoT solutions provider specializing in inventory management for the diamond and jewelry industry, helping over 800 companies enhance efficiency and maximize ROI through innovative technology.

Software Developer Intern (Data & AI)

Key Responsibilities:

- Developed a web-based ERP-style invoice and inventory management system using Python, Flask, Supabase/PostgreSQL, HTML, CSS and JavaScript.
- Built key features including transaction entry, invoice tracking, customer and salesperson records, payment tracking, dashboard summaries, and report exports.

Irys Middle East LLC – United Arab Emirates,

[Sep 2023 – Feb 2025]

Irys is a global RFID and IoT solutions provider specializing in inventory management for the diamond and jewelry industry, helping over 800 companies enhance efficiency and maximize ROI through innovative technology.

IT Support & Inventory Specialist

Key Responsibilities:

- Resolved over 50+ technical issues monthly, improving user satisfaction and reducing downtime
- Performed system installation and configuration for 100+ endpoints across multiple departments
- Created and maintained detailed technical documentation used for team training and audits
- Delivered user training sessions for 20+ staff, boosting technical confidence and reducing support requests
- Collaborated with cross-functional IT teams to enhance system performance and reliability by 30%

RCA Technology, Sri Lanka

[Feb 2023 – Aug 2023]

RCA Technology is a long-standing software company specializing in ERP solutions, dedicated to helping businesses streamline operations and grow through reliable, innovative software products.

Web Developer Intern

- Contributed to the development of a web application by implementing new functionalities and fixing bugs, which improved application performance by 20% and enhanced user experience.
- Collaborated with a team of developers on a high-impact project, completing tasks ahead of schedule and helping the team meet project deadlines with a 95% on-time delivery rate.

EDUCATION

Deakin University

[2024 – 2026]

Bachelor of Computer Science (Data Science Major)

Achieving distinction average in all semesters so far

ADDITIONAL INFORMATION

Languages: English (fluent), Sinhala (fluent)

Interests: Enthusiast of sports and staying active through physical training.
